

TOUPRET®

FILLERS FOR PROFESSIONALS

July 2022

Toupret launches tradespersons solution: better, faster Joint, Skim & Fill range

Toupret, the professional's choice for quality wall fillers, recognises that excellent results really matter, but so does the time it takes to get the job done (time is money, after all) with the launch of its better, faster **Joint, Skim & Fill range**.

Specially formulated for interior plasterboard jointing and surface finishing, the range is made up of powder & ready mixed products, ideal for tradespeople who work to tight deadlines. The high-performance products in this range ensure great results first time, every time. Our 'blind' product tests showed conclusively that Toupret has a clear product advantage, with more than 97% of respondents saying they would choose Toupret over the nearest competitor product¹.

Toupret Joint, Skim & Fill powder is quick and easy to mix and easy to apply. It provides a smooth finish with fine skimming in just one coat and is very easy to sand for a perfect finish. Best of all, **Joint, Skim & Fill** also has no depth limit and it doesn't shrink. With no need to prime for overcoating, you can be ready to paint in 12 hours.

The impressive **Joint, Skim & Fill Quick Dry powder** incorporates all these qualities with the added benefit of being ready to overpaint in just 3 hours. Ideal for tradespeople looking for a fast, high-quality finish to get them onto the next job quicker. What's not to love? Available in 5kg or 10kg bags.

¹ Independent study conducted in July 2018 of 36 tradespeople (painters and decorators, and general builders) of Toupret Joint, Skim & Fill versus its nearest competitor product.

Toupret's **Joint & Skim Ready To Use**, is ready-mixed and can be applied straight from the bucket manually or with an airless spray machine. Specially formulated to provide great results first time, this is essential for professional tradespeople that need to deliver quality results, quickly. It's very smooth to apply and easy to sand. Available in a 10kg or 20kg bucket.

The range is supported by two patch and repair products, with excellent adhesion, perfect for last minute snagging jobs. **Toupret Patch & Repair Filler Quick Dry** is ideal for any last minute touch-ups and repairs but it also copes well with bigger jobs, for example filling larger gaps and seams when replacing plasterboard tiles after access or utilities repairs access or utilities holes after repair work. Easy to mix and sand, with no shrinkage, no depth limit and no need to spot prime (ready to overpaint in just 3 hours), it's a must-have product for every tradesperson's toolkit. Available in a 1kg and 2kg box or 5kg bags.

Patch & Repair Filler Ready To Use is available in a 1.5kg tub, perfect for smaller snagging jobs. Reinforcing the range's better, faster trademark, **Patch & Repair Filler Ready to Use** is ready mixed for use on gaps, cracks, scratches and holes. The key features of this product are that it won't flash or grin and provides excellent adhesion.

Each product in Toupret's **Joint, Skim & Fill range** is uniquely designed to target gaps, cracks, and damaged walls and surfaces. The range is designed to give people everything they need for jointing, skimming and filling and all jointing products are CE certified for jointing applications (BS EN 13963).

The range consists of fillers which can be used across painted or unpainted interior substrates including gypsum plaster, plasterboard, old painted surfaces, any fillers in the Toupret range, cement, concrete, cellular concrete, breeze blocks, bricks and stone. So whatever the job, Toupret has you covered.

Toupret's **Joint, Skim & Fill** products are available to purchase from trade distributors nationwide.
